

CHEMTUFF DISPOSABLE COVERALLS

Applied Safety
style | comfort | protection for working people

PROVIDING THE ULTIMATE COMBINATION OF PROTECTION AND COMFORT

- » Type 5 & 6 for noxious dust and splash
- » EN 1073-2 for protection against nuclear particles
- » Excellent barrier properties
- » Higher comfort as the fabric is lighter and more breathable than ever before
- » Environmentally friendly - Candex uses 20% less materials than other products on the market
- » Breathable fabric

**CHEMTUFF
DISPOSABLE
COVERALL**

**CHEMTUFF
MACROCOOL™
COVERALL**

- » CE Type 5 & 6 for noxious dust and splash
- » EN 1173-2:2002 for protection against nuclear particles
- » Low linting
- » 2-way zip with fully resealable storm flap
- » Silicon free components

The **ChemTuff Macrocool™** Coverall provides a unique balance of comfort and protection. Offering full Type 5 and 6 protection with a breathable comfort panel beginning in the hood, covering the back and continuing down to the back of the knees. It combines the excellent chemical barrier and lint free properties of Macrobond 5/6 with the extra breathability and comfort of ChemTuff. The unique design of the Macrocool Coverall ensures the safety is not compromised in the name of comfort.

ChemTuff is a 5-ply microporous fabric with two outer layers of spun-bonded polypropylene providing strength and durability whilst three middle layers filter out any chemical splash and dust. Highly effective at holding out dust particles and chemicals and meeting type 5/6 standards, ChemTuff is far lighter and more breathable than similar product on the market, in fact using 20% less raw materials to achieve a superior performance.

- » CE Type 5 & 6 for noxious dust and splash
- » EN 1149-5:2008 for Anti-static
- » EN 1173-2:2002 for protection against nuclear particles
- » Silicon free components
- » Non-linting

**CHEMTUFF
MACROBOND™
COVERALL**

The **ChemTuff Macrobond 5/6™** Coverall is made from a unique combination of fabrics, soft and breathable and also resistant to noxious dust and splash in accordance with CE Type 5 and 6. It is non linting, ideal for a wide range of applications where the wearer needs protection and the environment must not be contaminated with fibres from the garment. Macrobond 5/6™ is breathable and therefore very comfortable to wear - even for long periods of time. Available with collar or fitted hood, and optional fitted boots.

**CHEMTUFF
FR ULTRA™
COVERALL**

- » CE Type 5 & 6 for noxious dust and splash
- » EN 1149-1 for Anti-static
- » EN 533 Index 1 for Flame retardancy
- » Breathable fabric

The **ChemTuff FR Ultra™** Coverall is made from the very best latest non-woven fabric technology, resistant to noxious dust and splash as well as being anti-static and fire retardant. The fabric is breathable. Generously cut and comfortable to wear even for long periods of time. The ChemTuff FR Ultra™ Coverall is ideal for a wide range of applications including medical, construction, asbestos removal & food processing.
